the company.

ARES specializes in the production of home furniture, including kitchens, bedrooms, living rooms, and children's bedrooms, for both national and international markets. The company is renowned for its expertise in processing squared panels in melamine-faced chipboard (MFC) using automated installations and advanced machinery that ensure consistently high production standards.

With a total covered area of 30,000 square meters across four production facilities, ARES manages the shipment of over 2,000 cubic meters of goods every week, making it a key player in large-scale home furnishing solutions.

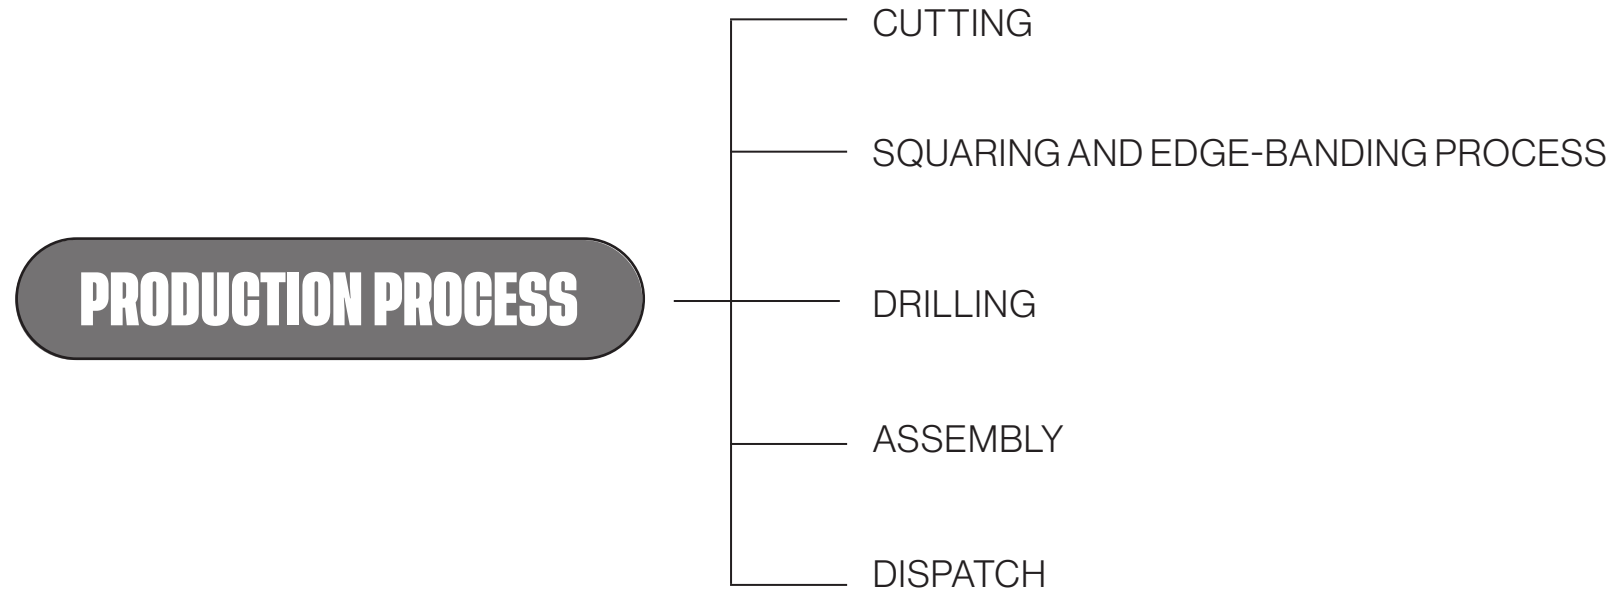

Thanks to a highly skilled technical department, ARES also offers custom design services for residential complexes, contract projects, holiday resorts, hotels, and turnkey solutions, bringing its interior design expertise to global partners.

Founded on a strong commitment to quality, creativity, and customer satisfaction, ARES has a long-standing tradition in the furniture industry. We are known for our large-scale, made-to-measure furniture, crafted with premium materials and expert craftsmanship that ensure durability and timeless elegance. From kitchens to bedrooms, offices to living spaces, each ARES collection is designed with meticulous attention to detail and tailored to meet the unique needs of our clients.

01

From the processing of the panel to the finished product ready to be used, here are the **5 steps** of Ares production cycle:

- **Cutting:** cutting to size and automated movement of panels
- **Squaring and edge-banding process:** squaring and edge-banding depending on the type of edges and finishes
- **Drilling:** drilling of the panel useful for assembly
- **Assembly:** assembly of semi-finished panels according to product and colour
- **Dispatch:** dispatch of packages
